Dear Sir:

Supplemental to the Second Supplemental Information Disclosure Statement dated May 30, 2006, the Supplemental Information Disclosure Statement dated May 25, 2006 and the Information Disclosure Statement filed March 29, 2006, Applicant is providing herewith a concise explanation for previously cited reference DE 38 05 448 C2 cited in the May 25, 2006 Supplemental Information Disclosure Statement.

DE 38 05 448 C2 relates to a motor vehicle inside roof lining formed as a blow molding from a thermoplastic tubular film section laid flat without cutting open at the sides. DE 38 05 448 C2 also qualifies as an "A" document defining the general state of the art which is not considered to be of particular relevance.

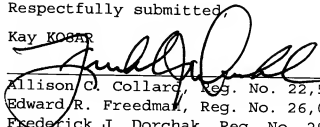

Because the instant Third Supplemental Information Disclosure Statement is being filed before the issuance of a first Office Action, it is believed that no official fee is required in connection with the same. It is respectfully requested that the foregoing Third Supplemental Information Disclosure Statement be

incorporated into the official file of the concurrently-filed PCT patent application.

Respectfully submitted,

Kay KOSAR
